Incivility, Bullying, and Workplace Violence in Healthcare

Holly Carpenter, BSN, RN
Senior Policy Advisor, American Nurses Association

Cole Edmonson, DNP, RN, FACHE, NEA-BC, FAAN
Chief Nursing Officer, Texas Health Presbyterian Hospital
Objectives

• Discuss select data from ANA’s health risk appraisal 2017 results on incivility, bullying, and workplace violence in the nursing profession.

• Summarize the work completed by ANA’s professional issues panel on incivility, bullying and workplace violence.

• Describe the development and implementation of effective bullying/workplace violence initiatives utilized in a large healthcare system.
“Bullying has long existed in health care; it was the ugly secret that no one wanted to talk about. However, the culture of acceptance and silence that accompanied it is finally being broken. The conversation is changing to focus on creating civil cultures that embrace collegiality and respect.”

- Edmonson & Bolick, 2015
Bully Culture

Those who survive bullying early in their careers tend to carry their learned behaviors with them. They accept the bully culture as part of the job and eventually may choose to bully others.

(Townsend, 2012)
State of the Science

• 35% percent of adult Americans (estimated at 54 million) report being bullied at work (Workplace Bullying Institute, 2010)
• Complicit in bullying are bystanders
  – Coworkers
  – Patients
  – Visitors

Be an Upstander!

Incivility Defined

- “Rude and discourteous actions”
  - Name calling
  - Condescending tone
  - Public criticism

(Andersson & Pearson, 1999; Read & Laschinger, 2013)
Bullying Defined

• “Repeated, unwanted harmful actions intended to humiliate, offend and cause distress in the recipient”
  – Top down
  – Bottom up
  – Lateral

• Workplace mobbing: “Collective form of bullying and as an expression of aggression aimed at ostracizing, marginalizing, or expelling an individual from a group”

(Harper, 2013; Bowling & Beehr, 2006; Galen & Underwood, 1997)
Defining Incivility & Bullying Behaviors

- Disrespectful behaviors including:
  - Harassment
  - Passive-aggressiveness
  - Teasing
  - Gossiping
  - Purposely withholding business information
  - Overruling decisions without a rationale
  - Sabotaging team efforts
  - Demeaning others
  - Verbal intimidation
  - Eye rolling
Incivility and Bullying

• Incivility and bullying occur
  – Top down and bottom up
  – Laterally
  – Among and within every profession
  – At every level of the organization

• We have experienced it
• We may have done it
• We have been silent bystanders
WHY DON’T LEADERS ACT?

• Lack clarity
• Lack of support
• Lack of awareness
• Lack of knowledge
• Lack tools

WHY DON’T PEERS ACT?

• Fear
• Unwilling to become a target
• Failure to recognize
• Lack of support
• Unwilling to get involved
• Don't know how to intervene
Workplace Violence Defined

• Type I - Criminal intent
• Type II – Customer, client, or patient
• Type III- Worker-on-worker
• Type IV – Personal relationships

(DHHS, 2006; NIOSH, 2013; IPRC, 2001)
Organizational Standards

• ANA *Code of Ethics* mandates reporting of unethical behaviors in the workplace (ANA, 2001).

• In 2006, the ANA adopted principles related to nursing practice and the promotion of healthy work environments for all nurses.

• The Joint Commission standards addressing hostile behavior in the workplace went into effect in 2008. These standards require healthcare institutions to have codes of conduct, mechanisms to report disruptive behavior, and a process for disciplining offenders who exhibit hostile behavior.

• In 2015, the ANA published a position statement on incivility, bullying, and workplace violence with recommendations for RNs and their employers.
Detrimental Effects to Nursing Profession

• Change/leave profession
• Low job satisfaction
• Health effects
• Direct and indirect costs
• Decreased appeal to potential new nurses
• Lower faculty numbers
• Unhealthy, disrespectful work environments
Nurse Health

• Decreased self-worth and confidence
• Physical symptoms
• Psychological symptoms
• Judgment impairment
Physical/Psychological Manifestations

Common reactions:
- Acute or chronic anxiety
- Depression
- Sleep interruptions
- Fatigue
- Lack of mental focus

Post-traumatic stress disorder:
- An experience that shatters beliefs and values
- Manifestation: Withdrawal, Conversion, Projection
Financial Implications

- Decreased productivity
- Employee turnover
- Treatment for victims of violence
- Legal expenses
- Recruiting, hiring and training new employees
October is Anti-Bullying Month
What we’re striving for

- Safe, respectful work environment
- All are valued
- Collaboration
- Zero-tolerance policy
- Prevention initiatives in place
  a. Primary-identify and reduce
  b. Secondary-reduce harm during incident
  c. Tertiary-reduce consequences following incident
New ANA Position Statement on Incivility, Bullying, and Workplace Violence
Incivility, Bullying, and Workplace Violence

Position Statement

• Developed throughout 2015, released in August
• Developed by ANA Professional Issues Panel
  – Diverse group of RNs representing many areas of practice and academia
  – Advisory committee of 400 nurses convened virtually via ANA Nurse Space
• Public comment period
  – Over 250 comments received
Incivility, Bullying, and Workplace Violence

• Position statement approved by ANA Board at 2015 Membership Assembly

Includes:
• Statement of ANA position
• Background
• Definitions of key terms
• Recommendations for RN AND Employers
• Extensive references
• ANA’s Code of Ethics for Nurses with Interpretive Statements states that nurses are required to “create an ethical environment and culture of civility and kindness, treating colleagues, coworkers, employees, students, and others with dignity and respect”.

• Similarly, nurses must be afforded the same level of respect and dignity as others. Thus, the nursing profession will no longer tolerate violence of any kind from any source.

• All RNs and employers in all settings, including practice, academia, and research, must collaborate to create a culture of respect that is free of incivility, bullying, and workplace violence.
Incivility and Bullying: Recommendations for RNs and Employers
Prevention Strategies

• **Primary:** Identify and reduce vulnerabilities in order to prevent

• **Secondary:** Strategies to reduce harm once an incident has begun

• **Tertiary:** Strategies aim to reduce associated consequences
Primary Recommendations for Nurses

• Healthy relationships
• Self evaluation
• Communication
• Inclusiveness
• Conflict negotiation/resolution
• Code words
• Predetermined phrases
• Advocacy
• Uphold Code of Ethics
Civility Best Practices

• Clear communication
• Respect
• Consider words and actions
• Avoid gossip and rumors
• Collaborate and share
• Offer assistance
• Take responsibility
• No abuse of power

• Be polite
• Apologize
• Encourage
• Listen
• Constructive criticism
• Be open
Civility & Respect Tool-Kit  www.stopbullyingtoolkit.org

• Free resources to empower healthcare leaders to identify, intervene, and prevent workplace incivility and bullying

  • Moral Compass
  • Introduction
  • How to use the tool-kit
  • Socio-ecological model
  • Helpful Links
  • Grouping of resources into buckets
    • Truth
    • Wisdom
    • Courage
    • Renewal

Civility Tool-Kit

Introduction
How to use the tool-kit
Socio-ecological model

Truth
- Civility Quotient
  - Self Assessment
- Environmental Assessment
- Civility Index Dashboard

Wisdom
- Fact Sheet
- Slides
- Policies
- Bibliography

Courage
- Mnemonic
- Code Words
- The Language of Collaboration
- Respectful Conversations

Renewal
- Critical Incident
- Stress Management
- Schwartz Center Rounds
- Employee Assistance Program
- Courage and Renewal
Secondary Recommendations for RNs

• Consider responding directly to instigator
• Seek guidance through appropriate channels
• Use the code word
• When code word is used, respond
• Bystanders-support target, consider addressing instigator
Tertiary Recommendations for RNs

• Report event
• Keep detailed written account
• Provide support to targets
• Apologize, make amends
• Consider obtaining
  – Peer support
  – EAP
  – Counseling
  – Legal counsel
  – Activate security system
  – Worker’s Comp
Primary Recommendations for Employers

- Culture of respect and safety
- Orientation
- Zero tolerance policy
- Mechanism for support
- Education
- Stress reduction
- Peer coaching and mentoring
- Communication
- Crisis theory/identification/intervention, conflict negotiation/resolution
Secondary Recommendations for Employers

• Support from leadership-evaluate own actions
• Stress management and reduction strategies
• Empirical measures
• Develop action plan
• Fatigue reduction
• Hardiness and resilience training
Tertiary Recommendations for Employers

• Activate reporting mechanisms
• Maintain and monitor accounts of incidents
• Designated neutral representative
• Possible committees
• Performance improvement plans for instigators
• Transparency
• Keep target from retaliation
Workplace Violence: Recommendations for RNs and Employers
Primary Recommendations for RNs

• Assist with development of prevention program
• Understand policies and procedures
• Training, education
• Anticipate, prevent, respond to crises
• Know how to use environmental controls
• Self-care
• Situational awareness
  – Presence and purpose of unknown individual
  – Assess environment
  – Recognize cues
Secondary Recommendations for RNs

• Comprehensive program
• Crisis intervention and management
• Use administrative controls
• Use environmental controls
• Use reporting system
• Report concerns
Tertiary Recommendations for RNs

• Evaluate, continued improvement
• Post-incident meetings
• Use counseling post-incident
• Refer bystanders to appropriate services
• Express sympathy
• Provide support
Primary Recommendations for Employers

• Leadership commitment
• Just Culture
• Comprehensive WPV prevention program aligning with OSHA guidelines
  – Management commitment and employee involvement
  – Worksite analysis
  – Hazard prevention and control
  – Training and education
  – Development of a plan for reporting and evaluation
Primary Recommendations for Employers

• Hazard Prevention and Control (Hierarchy)
  – Engineering controls
    ▪ Modification of room layouts
    ▪ Lighting
    ▪ Limited access
    ▪ Securing/eliminating items that can be used as weapons
  – Administrative controls
    ▪ Policies, procedures
    ▪ Codes
    ▪ Training and education
      – At hire, annually, PRN
      – Specialized
      – Mock drills
      – De-escalation techniques, self-defense, situational awareness
      – Variety of methods
Primary Recommendations for Employers

• Near miss reporting, tracking, and evaluation
• HR
  – Prescreen
  – Background checks
  – Minimize provoking former employees
• Optimal staffing
Secondary Recommendations for Employers

• Identify strengths and weaknesses
  – Continuous improvement
  – Maintain and update
• Treat threats seriously
• Review each episode thoroughly
Tertiary Recommendation for Employers

• Evaluate and improve WPV program
• Acknowledge injury or loss
• Arrange for immediate coverage
• Provide support
• Conduct root cause analysis
